The Energy Storage Experts

Update from the Field – March 2019

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
New regulations and initiatives discussed this month	5
Americas	5
United States	5
Europe	6
United Kingdom	6
Project updates and announcements	7
Overview of the 2019 market for utility-scale energy storage projects	7
Projects announced or contracted this month	8
Europe	8
Americas	8
Australia & Oceania	9
Africa	9
Projects commissioned this month	9
Europe	9
Asia	10
Americas	10
Tenders this month	11
Asia	11
Africa	11
Australia & Oceania	11
Focus of the month: Utility scale, grid-connected PV-plus-Storage	12
In the USA, PV-plus-storage development is being pushed at the federal, state, and local levels	13
Subsidies for PV plus storage are available at the federal and state levels	13
In certain states, coupling PV and storage is becoming an obligation	16
Some utilities have already understood the value of coupling PV and storage	17
PV plus storage deployment outside the US	22
Some regulatory bodies require developers to couple storage to their PV farms	22
Merchant based PV plus storage projects outside the US	25
Business opportunities: Factors influencing the cost of solar plus storage	26
The landscape of PV-plus-storage projects has considerably evolved over the last few years	26
Cost of PV plus storage can vary extensively from one location to another	28

Update from the Field – March 2019

A monthly analysis note from the energy storage experts

Table of figures

Figure 1: Steady state expected response for future frequency response services in Great Britain	6
Figure 2: Utility-scale energy storage projects announced/contracted and commissioned in 2018 and 2019 (ongoing).....	7
Figure 3. Announced and operational PV-plus-storage projects per zone	12
Figure 4. USA Investment Tax Credit Incentive scheme (2017 - 2022)	13
Figure 5. The SunShot initiative goals	14
Figure 6. AC-coupled system.....	20
Figure 7. DC-coupled system	20
Figure 8. Efficiency comparison depending on coupling and charging methods.....	21
Figure 9: PV plus storage deployments driven by utilities outside the US	22
Figure 10: Constraints for solar deployment in the French Overseas Territories and in Hokkaido	23
Figure 11: Bonus provided by the state in the French Overseas Territories and South Korea for PV shifting	24
Figure 12: PV plus storage projects funded by DFIs.....	25
Figure 13: Illustration of merchant-based PV plus storage projects.....	26
Figure 14. Evolution of energy costs and sizing of storage systems	27
Figure 15. LCOE of a typical large-scale PV plus storage project in various geographies	29
