The Energy Storage Experts

# Update from the Field – April 2018

*A monthly analysis note from the energy storage experts*

## Table of Contents

<b>Executive Summary</b>	<b>2</b>
<b>Table of Figures</b>	<b>5</b>
<b>New regulations and initiatives discussed this month</b>	<b>6</b>
<b>Americas</b>	<b>6</b>
California	6
Colorado	6
<b>Europe</b>	<b>7</b>
Ireland	7
France	8
<b>Asia-Oceania</b>	<b>8</b>
<b>Projects updates and announcements</b>	<b>9</b>
<b>Overview of the 2018 market for utility-scale energy storage projects</b>	<b>9</b>
<b>Projects announced or contracted this month</b>	<b>10</b>
Americas	10
Australia & Oceania	10
<b>Projects commissioned this month</b>	<b>11</b>
Americas	11
Europe	11
Australia & Oceania	12
<b>Projects tendered this month</b>	<b>12</b>
<b>Focus of the month: Great Britain and trends in the stationary storage industry</b>	<b>13</b>
<b>In Great Britain, National Grid provides more visibility in frequency response tenders</b>	<b>13</b>
Recent trends in the FFR auction	13
Firm Frequency Response auction results become more transparent	14
Firm Frequency Response simplification process (from tender round closing to 1 <sup>st</sup> May 2018)	16
National Grid published a consultation on the next frequency response product	18
Conclusions and what's next for Great Britain	20
<b>Movements in the electricity storage value chain</b>	<b>20</b>
Manufacturers: South Korean companies confirm their lead	20
Standardization products options for battery manufacturers	22
Energy storage system integrators: a position where track record is scarce	23
Aggregators' role is becoming increasingly crucial for project monetization	25
As markets become more transparent and liquid, aggregators role gets more complex	26

# Update from the Field – April 2018

*A monthly analysis note from the energy storage experts*

## Table of Figures

Figure 1: Required FFR response for September 2018 procurement in Ireland .....	7
Figure 2: Utility-scale energy storage projects announced/contracted and commissioned in 2017 and 2018 (ongoing) .....	9
Figure 3: Number of FFR tenders received by National Grid in 2017 .....	13
Figure 4: Accepted dynamic FFR prices from 2015 to end 2017 (source: Smartest Energy) .....	14
Figure 5: FFR contracts value in Great Britain in March 2018, battery sizes and contracts duration .....	15
Figure 6: Companies awarded FFR contracts in Great Britain in March 2018 .....	16
Figure 7: FFR standardization, procurement and contracts duration (Source: National Grid) .....	17
Figure 8: FFR monthly requirement from April 2018 to September 2020 (source: FFR market information May 2018, National Grid) .....	18
Figure 9: Characteristics of the next fast frequency response products in Great Britain (source: National Grid) .....	19
Figure 10: Characteristics of frequency response products in Great Britain .....	20
Figure 11: Energy storage manufacturers for projects commissioned in 2017 and 2018 so far (in % of MW commissioned) .....	21
Figure 12: Standardized products offered by Samsung, Tesla and LG Chem .....	22
Figure 13: Average storage project sizes by commissioning year .....	23
Figure 14: Energy storage system integrators ranked by commissioned and installed capacity.....	24
