The Energy Storage Experts

Update from the Field – May 2018

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
Table of figures	4
New regulations and initiatives discussed this month	5
Americas	5
Europe	5
Projects updates and announcements	6
Overview of the 2018 market for utility-scale energy storage projects	6
Projects announced or contracted this month	7
Americas	7
Europe	7
Projects commissioned this month	8
Americas	8
Europe	8
Focus of the month: Power-to-Gas systems and recent large-scale deployments and increasing support	8
Power-to-Gas – An indirect competitor to other energy storage technologies	8
The hydrogen value chain	10
H ₂ production	12
Hydrogen compression and storage	14
Hydrogen applications	16
The increasing sizes of Power-to-Gas demonstration projects	16
Current developments, players, and demonstrations pushing for hydrogen	20
Power-to-gas for mobility – hydrogen as an energy vector	20
Examples of the increasing size of electrolyzers in demonstration projects	23
Consortiums seeking to push hydrogen sector coupling	25
Financing entities in favor of hydrogen systems	26
The Fuel Cell and Hydrogen Joint Undertaking (Europe)	27
ARENA and the Renewable Energy Target (Australia)	27
NOW GmbH and the BMVI (Germany)	28
Department of Energy and California's Alternative and Renewable Fuel and Vehicle Technology Program (USA)	28
NEDO, METI, and the Metropolitan Government (Japan)	28
Conclusions and remarks on Power-to-Gas	29

Update from the Field – May 2018

A monthly analysis note from the energy storage experts

Table of figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2017 and 2018 (ongoing)	6
Figure 2. Overview of several operating energy storage technologies by size and duration	9
Figure 3. Example of pathways for hydrogen	11
Figure 4. Value chain of hydrogen: production, storage, and use	11
Figure 5. Electrolyzer characteristics by technology type	13
Figure 6. Electrolyzer manufacturers by technology (for hydrogen production) ...	14
Figure 7. Examples of various pathways for hydrogen	16
Figure 8. Number, size, and location of several hydrogen demonstration projects	18
Figure 9. Noted application(s) and/or end-use(s) regarding several hydrogen demonstrations	18
Figure 10. Non-exhaustive timeline of hydrogen system demonstrations (2013 – present)	19
Figure 11. Hydrogen Mobility Europe H2ME Program	22
Figure 12. Table summarizing entities funding hydrogen systems	27
