The Energy Storage Experts

Update from the Field – April 2019

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
New regulations and initiatives discussed this month	5
Americas	5
United States	5
Asia	5
Philippines	5
Oceania	5
Australia	5
Project updates and announcements	6
Overview of the 2019 market for utility-scale energy storage projects	6
Projects announced or contracted this month	7
Europe	7
Americas	8
Projects commissioned this month	9
Europe	9
Asia	9
Tenders this month	10
Americas	10
Asia	10
Africa	11
Focus of the month: European Aggregators and energy storage monetization	12
Aggregators are crucial intermediates to monetize storage systems	12
Market access	12
Aggregator portfolio benefits	13
Storage aggregation and market movements across Europe	16
Market movements implicating European energy storage aggregators	17

Update from the Field – April 2019

A monthly analysis note from the energy storage experts

Table of figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2018 and 2019 (ongoing).....	6
Figure 2. Illustrative explanation of the Pivot Power/redT project	7
Figure 3: Aggregators can monetize flexibility throughout the electricity supply chain	12
Figure 4: Aggregation of residential batteries to provide a service equivalent to a 1MW battery	13
Figure 5: European frequency distribution around nominal value	14
Figure 6: Static aggregation to leverage battery use within a portfolio to provide FCR.....	14
Figure 7: Providing Symmetric 100 product instead of Symmetric 200 can increase battery revenues by 33%.....	15
Figure 8: IRR of a battery providing FCR in Europe depending on static aggregation	15
Figure 9: Dynamic aggregation of a battery with a slow demand response.....	16
Figure 10. Aggregated storage capacity per European aggregator in MW	17
Figure 11. Recent market transactions involving energy storage aggregators.....	18
Figure 12: European aggregators operating energy storage systems in April 2018	19
