

CLEANHORIZON

The Energy Storage Experts

Update from the Field – February 2020

A monthly analysis note from the energy storage experts

Every month, Clean Horizon's team of energy storage experts delivers an analysis of key data and trends affecting the energy storage industry worldwide.

This monthly report updates and analyzes new relevant regulations, monitors commissioned and announced projects, and provides specific focus on key market trends which are likely to have a direct impact on industry stakeholders.

The Energy Storage Experts

Update from the Field – February 2020

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
New regulations and initiatives discussed this month	5
Americas	5
United States	5
Australia & Oceania	5
Australia	5
Europe	6
United Kingdom	6
Project updates and announcements	7
Overview of the 2020 market for utility-scale energy storage projects	7
Projects announced or contracted this month	7
Australia & Oceania	8
Projects commissioned this month	9
Americas	9
Tenders this month	9
Asia	9
Americas	10
Focus of the month: Hydrogen-based energy ecosystem as a potential impending environment- and climate-friendly energy carrier	11
Policies supporting hydrogen and available financing instruments	11
Supranational level	11
National level	13
Rest of Europe	16
Major Hydrogen-based projects and initiatives	18
Project financing tendencies	18
The interest in hydrogen is outreaching national and European limits thanks to numerous local and regional initiatives	20
Case studies - conditions for hydrogen to become competitive	21
Hydrogen industry	22
Hydrogen mobility	24
Hydrogen energy	25
