

CLEANHORIZON

The Energy Storage Experts

Clean Horizon's Market Segment Watch Energy Storage in the Northeast United States

Energy Storage Targets and Incentives

- 200 MWh Massachusetts Mandate
- 1,500 MW New York Incentive

Main opportunities for energy storage:

- Frequency Regulation
- Capacity Markets
- Demand Response

Revenues available for energy storage in:

- New York (NYISO)
- New England (ISO-NE)

Recent regulatory evolutions

2018

Over 50 MW operational

2020

155 MW in the pipeline

2025

2,000 MW Incentive

Report price:

1200 € early bird price until April 15th

1500 € standard price

(sales tax not included)

Table of Contents – Energy Storage in the Northeast United States

Acronyms.....5
Definitions7
Introduction7
1. Energy Regulation, Actors, and Profile of the Northeast United States8
1.1 Regulators, Stakeholders, and Utilities in the northeast.....8
1.1.1 Power Producers in the northeast of the United States11
1.1.2 Utilities13
1.1.3 Electricity Retailers.....15
1.2 Energy Storage Developers and Actors in the Northeast United States17
2. The current state of energy storage and potential opportunities in the Northeast19
2.1 Current opportunities for energy storage in the northeast19
2.1.1 Opportunities for Energy Storage in New York21
2.1.2 Opportunities for Energy Storage in Massachusetts.....22
2.1.3 Opportunities for Energy Storage in Rhode Island22
2.1.4 Opportunities for Energy Storage in Maine23
2.1.5 Opportunities for Energy Storage in Connecticut.....23
2.1.6 Opportunities for Energy Storage in New Hampshire24
2.1.7 Opportunities for Energy Storage in Vermont.....24
2.2 Energy Storage projects in the northeast – the current state of charge.....25
2.2.1 New York.....25
2.2.2 Massachusetts26
2.2.3 Rhode Island.....27
2.2.4 Maine28
2.2.5 Connecticut28
2.2.6 New Hampshire.....28
2.2.7 Vermont29
2.3 Current Incentives for Energy Storage Deployment in the Northeast USA: New York and Massachusetts.....29
2.3.1 New York.....29
2.3.2 Massachusetts32
3. Market-Based Revenue Streams for Energy Storage in the Northeast USA.....35
3.1 Electric Energy Markets.....37
3.1.1 Frequency Regulation in NYISO and ISO-NE.....38
3.1.2 Capacity Markets in NYISO and ISO-NE.....39
3.2 ISO New England Energy Market.....40
3.2.1 Ancillary Services.....43
3.2.2 Frequency Regulation44
3.2.3 Forward Capacity Market47
3.2.4 ISO New England Demand Response Programs.....49
3.2.5 Conclusions and Future Plans for ISO-NE51
3.3 New York ISO Energy Market51
3.3.1 Ancillary Services.....54
3.3.2 Frequency Regulation55
3.3.3 Installed Capacity Market58
3.3.4 NYISO Demand Response Programs59

3.3.5 Conclusions and Future Plans for NYISO ...60
4. The North American Electric Power System ...60
4.1 Regulators ...60
4.2 Interconnections and Reliability Councils ...61
4.3 Balancing Authorities (Regional Transmission and System Operators) ...63
4.4 System Operators ...64
4.5 Power Producers in the United States ...65
4.6 Utilities in the United States ...65
5. Northeastern State's Energy Snapshots – General Energy Information ...66
5.1 New York ...66
5.2 Massachusetts ...67
5.3 Rhode Island ...69
5.4 Maine ...70
5.5 Connecticut ...71
5.6 New Hampshire ...72
5.7 Vermont ...73
