Update from the Field – September 2018

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
Table of figures	5
New regulations and initiatives discussed this month	6
Americas	6
United States	6
Canada	6
Europe	7
Ireland	7
United Kingdom	7
Asia	7
India	7
Projects updates and announcements	8
Overview of the 2018 market for utility-scale energy storage projects	8
Projects announced or contracted this month	9
Asia	9
Europe	9
Americas	9
Australia & Oceania	10
Projects commissioned this month	10
Asia	10
Europe	11
Americas	11
Australia & Oceania	11
Projects tendered this month	11
Asia	11
Focus of the month: the market for secondary control reserve provision in Germany	13
Description of the German secondary reserve market	13
General rules of the market	13
Changes in the auction from July 2018	14
Bids selection and computation of energy and capacity prices	14
Looking at the potential revenues in 2017 on secondary reserve	16
Capacity reservation revenues	16
Energy revenues	18
Building the business case for secondary reserve based on 2017 prices	20
Consequences of the evolution of the auction format	22
Increase in market liquidity	22
Increased volatility in the auction price	24
Evolution of the average energy activation price	24

Table of figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2017 and 2018 (ongoing)	8
Figure 2: Changes in the secondary reserve auction timeline.....	14
Figure 3: Illustration of secondary reserve awarded capacity	15
Figure 4: Activated energy for secondary reserve in Germany and bids selection	16
Figure 5: Capacity prices for secondary reserve in 2017 between the hours of 00:00h and 08:00h as well as between 20:00h and 24:00h from Monday through Friday, all day on Saturday, Sunday and public holidays applicable to all of Germany	17
Figure 6: Capacity prices for secondary reserve in 2017 between the hours of 08:00h and 20:00h from Monday through Friday (excluding public holidays applicable to all of Germany)	17
Figure 7: Activation of negative and positive secondary reserves the first week of 2017 in Germany	18
Figure 8: Maximum daily spread in energy activation prices depending on discharge duration	19
Figure 9: Payments expected of a battery storage system depending on storage discharge duration	20
Figure 10: Business case for a 10MW/ 10MWh storage system providing secondary reserve based on 2017 prices	21
Figure 11: Business case for a 10MW/ 40MWh storage system providing secondary reserve based on 2017 prices	22
Figure 12: Number of bids for positive reserve and average bid size in 2018	23
Figure 13: Evolution of the secondary reserve capacity price for secondary reserve	24
Figure 14: Evolution of the average activated energy price for secondary reserve	25
Figure 15: Evolution of the average daily spread between negative and positive secondary reserve activated energy	26
